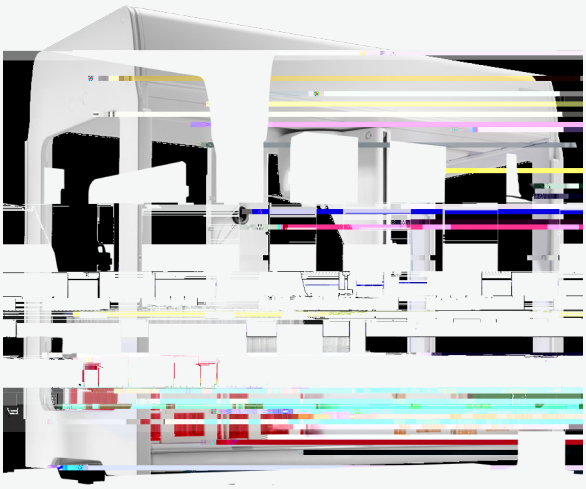
AIM4000 Autosampler

Setting the bar in innovative autosampler design



The AIM4000 represents the culmination of over 25 years of liquid autosampler design expertise and eld-proven performance. Designed to automate the introduction of large batches of liquid samples into an analyzer, the AIM4000 enhances reproducibility, throughput, and overall performance.

AIM™ Autosamplers boast minimal maintenance requirements, along with an extended operational life. Known for their reliability and versatility, AIM™ Autosamplers can be integrated with various analytical te TJ ET EMC /P <</Lang (en-US)/MCID 25 >>BDC BT 9 0 0 9 297.6378

installed.

- Optional integrated protective sampler cover that takes no additional space, is easy to t and, cost effective.
- Optional three channel wash pump for feeding clean wash solution to either a single or dual port wash station.
